Southwestern Pennsylvania Area
Agency on Aging

REGISTER NOW!

This National Learning & Action Network (LAN) session topic aligns with the Centers for Medicare & Medicaid Services (CMS) Quality Strategy goal of promoting effective communication and coordination of care and will focus on identifying and addressing needs for community and social supports.

This event is open to beneficiaries, families, healthcare providers, practitioners, partners, and Quality Innovation Network-Quality Improvement Organizations (QIN-QIOs).

LEARNING OBJECTIVES:

- Identify key elements to help you succeed in achieving effective communication and coordination of care
- Describe best practices used to bridge community and social support gaps in care
- Explain how you can leverage partnerships to help achieve desired change within your team or organization

The purpose of this session is to prepare healthcare quality improvement professionals to implement effective communication and coordination of care strategies by exploring promising practices that address community and social support needs. We expect that this experience will help participants demonstrate and promote successful communication and coordination of care practices and identify opportunities for improvement, all of which may promote advances in care that impact the Medicare beneficiaries served by the work of the QIO Program.

METHOD OF PARTICIPATION:

You must participate in the entire activity to receive credit. A statement of credit will be available upon completion of an online evaluation/claimed credit form. The link to the online evaluation will be provided after completion of the activity. If you have questions about this CME/CE activity, please contact AKH Inc. at service@akhcme.com.
